A GAIN COMES Armistice Day, a reminder of a great war's end. Many will parade, including legions, shell-shocked, paralyzed men, unable to walk, also "celebrating Armistice Day."

At the President's request there will be silence, one or two minutes, for profound thought. If you don't forget it, you might think during that period, think how lucky it is that the United States was not dragged, kicked, coerced or bullied by Woodrow Wilson or anybody else into the League of Nations. If you have time left over, pray that we may be spared the World Court.

IT IS SAID, in Job: "God thundered marvelously with His voice; great things did He, which we cannot comprehend." To understand this universe, the forces or the intelligence

back of it, seems hopeless after you read Dr. Milikan's description of the new rays that roam through space. They are stronger than ultra-X rays, 1,000 times greater in frequency, their ionization is constant, day and night and they are of the "10,000 volt variety."

WHEN VOLTA, learned that lan, wrote his treatise, "On the attractive force of electricity," 150 years ago, he did not know Napoleon, who made him a count and Senator of the Kingdom of Italy. Imagine what terrible force in nature would be called "Volts" in Volta's honor.

ANOTHER BIG DAY in Wall Street, all records broken, with sales of more than 2,499,999 shares.

And many little Wall Street jacks had their financial backs broken in several places. Had they taken a warning printed in this column several Confined on Page 6, Column 4.

GEORGE GOULD MISSPENT \$82,000,000

\$15,000 FOR A TATE MAYOR'S URGED

Curley Proposes Change in City Charter; Says Job Is Well Worth It

Mayor Curley sent to the Boston City Council a bill calling for an amendment to the city charter, and providing for an increase in the mayor's salary from \$10,000 to \$15,000.

This amendment is proposed to take place on January 4, 1926, which is Inauguration Day, and may be the first present which Mayor-elect William E. Nichol will receive as an inaugural gift.

There is little doubt but that the recommendation of Mayor Curley will receive the approval of the Council.

The Mayor says in making the recommendation: "The duties and responsibilities of the Mayor of Boston are so increased since the adoption of the city charter, as to require the entire time and attention of the official elected to discharge the same."

In 1908 when the revised charter was adopted, the expenses of the city were \$2,747,000; during 1924 they were \$24,123,000. These figures clearly indicate an increase of over 100 per cent in the city's expenditures, and denote a corresponding increase in the work of the office.

"The salary at present paid to the Mayor was established four years ago, and is neither commensurate with the duties of the office nor in keeping with the importance and dignity attached thereto."

MOTHER OF 5, WEARY, TAKES POISON

Through a year of bitter toil and disappointment, Mrs. Mary Scully, twenty-eight, and a widow, managed to keep her brood of five children together in South Boston, but today the family became two—street and she took poison.

Writing under the guise of a biographer of mercury statistics, the widow of a year dropped to the floor of her home at No. 71 East Fourth street, and the other children, none stricken, ran to neighbors for assistance.

Dr. Maurice Scanlon of No. 74 East Fourth street, was called and he rushed to the mother to the City Hospital in a taxi, where hospital physicians said they believed they could save her life.

Mrs. Scully's husband died a year ago.

FACTORY GUARD BEATEN BY THUG

Providence, Nov. 11.—Police are investigating a murderous attack on Frank Holt, watchman employed in the jewelry factory of the Fulford Manufacturing Company here today.

Holt is in a critical condition in the Rhode Island Hospital suffering from a fractured skull as a result of the beating given him by an unknown assailant with a heavy iron bar and claw hammer.

Threats on the blood-stained bar are an important clue to the solution of what the police believe to have been an unsuccessful attempt to rob the plant.

KIDNAPED GIRLS SEEN IN AUTO; SEEMED DAZED

Waltham, Nov. 11.—Miss Mary Marshall, aged fourteen, and Roseline Elyria, aged seventeen, Boston girls thought to have been kidnapped in that city a week ago, were seen in an automobile on the Lafayette road, near Ballin's square, a few days ago, by Sealer of Weights and Measures Fulman of this city.

Sealer Fulman told Captain Irving G. Hussey of the local police, and the Boston police have been notified. Fulman saw two girls, apparently drugged, in a speeding machine. He thought nothing of the matter until he saw pictures of the two girls in a Boston paper.

B. U. Star Harrier's Malady Baffles Five Doctors at Bay State Hospital

With one leg paralyzed and his brain inflamed through some mysterious malady that five doctors have been unable to diagnose, Ernest H. Munson, leading harrier on the Boston University track team, is fighting a losing battle for life today at the Bay State Hospital.

Overlook is given as one of the factors in his condition, for all during the summer the athlete delivered 400 quarts of milk daily to cows in condition and at the same time help pay his way through college.

But what strange malady has shaken his health the five physicians who have been in attendance for a week are unable to say.

STURGEON ALARMED. As one of the most versatile harriers in the cross-country team and popular in social life of the university, Munson and his affliction are the chief concern of the under-graduates.

Coming back to college after his summer of hard toil as a farm, the athlete settled down to study and training, but after a few weeks of summer more with Taffs and North-eastern, he complained of feeling ill.

Physicians of City of Sigma Chi rushed him to Bay State Hospital, where an almost constant attendance is maintained to the doctors.

Other physicians were called in consultation with today the attending Dr. Lewis H. Fiske, Harry Goodall, Thomas O'Brien, James A. and Maxwell Nicholson, and they have been in attendance every day also.

DOCTORS RAMPLED. This far in the advancement of his strange disease, paralysis of the left leg and inflammation of the brain have set in, but no central cause has been located and the cause has become decidedly baffling.

Little hope is held for his recovery. Today Dr. Rockwell announced that the athlete is "slipping away slowly," and the entire university is doleful, with all other university subjects placed in the background.

Young Munson's lack, his earnestness and his willingness to work on his own and low college have won him the esteem of all his associates, and in the shadow of the finishing tape all are rooting hard for him.

The afflicted athlete is a member of the circulation department of the "Beacon," the university's weekly one monthly, and is a contributor to the Boston University News, undergraduate weekly newspaper.

OFFICERS Mired IN MAN HUNT

Special Officer Finn of the Brighton police station lost his watch, his companions, officers Willard and Hamlet, sank into mud to the knees and two of a trio of automobile thieves made their escape in the dark hours of this morning during an exciting chase over the marshes of North Harvard avenue.

After extricating themselves from the marsh the pursuers cornered a youth on Jefferson street, North Brighton, who gave him the name as Horace Langford of Allston street, and who he held as a suspicious person.

The officers had secreted themselves in the marshy environs of the new Harvard Business School and noted the arrival of the trio with a sedan but the alleged thieves became aware of the officers' presence and made a quick getaway.

When Langford was captured he is alleged by the police to have admitted being with two companions when they held up and robbed William Curran of Boston street, Brighton, on the night of October 31, but denied any part in the actual crime.

GREENE NOW FAVORS COMPULSORY PEACE. Green, Nov. 11 (A.P.)—Greene has officially informed the League of Nations that the world welcomes a Balkan security and compulsory arbitration pact along the lines of the pact for Western Europe, negotiated at Locarno.

BAFFLES DOCTORS

SILENT HOUR RADIO WEEK

The members of the United States will gladly stay off the air one hour each evening during International Radio Week, January 24-30, 1926, according to advice and information received by the executive committee handling this event.

Formal action by the broadcasters of the United States will come at the meeting of the National Association of Broadcasters now in session, which will handle the broadcast features of the work from the American side.

While we have no official word from the broadcast committee, L. A. Nason, secretary of the radio week committee, says, "We have had advance assurance from some of the more prominent broadcasters of the country that there will be no operation of a silent hour on American radio."

The official silent hour will be from eleven to twelve eastern standard time, according to our present information, and while this will not work a tremendous hardship on eastern stations, it represents a rather important factor for the broadcasters in the central and western states.

The cooperation of the broadcasting stations of the country in past international radio week has been one of the most important factors, and we believe that this same cooperation, extended for the coming event, will continue to be one of the greatest factors in the furtherance of the American broadcast to add another foreign station or two to their list.

CLASS A WAVE LENGTHS CARRY HIGH POWER

The success of station WYOK at Chicago, in transmitting with high power on 21.3 meters in passing some comments, when it is recalled that some experts expressed a belief that high power could not be used satisfactorily on the lower Class A wave lengths. Evidently the Senate Radio Manufacturing Co. has found out how to do this. This station comes in at many places as well as the lower wave lengths. Perhaps, after all, the Class A wave lengths are almost as useful and valuable as the more popular B waves.

DAILY ADVERTISER IS BEST RADIO TEACHER

The daily newspaper is the greatest medium of education in radio since the advent of radio broadcast. The reason for this is that the cause radio textbooks are practically impossible to keep up to date owing to the rapid changes of radio.

DX Conditions Last Night

By "THE DOCTOR."

It was a good night. Local reception was ideal, and stations as far West as the Mississippi were available with good volume.

The bad fading of the past few days has considerably diminished, although the static seems to remain with us.

Users of sensitive receivers have probably noticed the great amount of "squawks" in the air lately.

These undoubtedly are being produced by users of regenerative sets who don't know how to operate their property.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting. This shanty you lift it right off with fingers.

Your drugist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

RITZ-KITCHENETTE COOKERY

REPORT we get really into the problems of the kitchenette, I find to say just a word about the kitchenette dishwashing. No dishman hangs on the wall of the modern kitchenette and why should it, when the abundant supply of hot water of the modern apartment makes both kitchenette and dishwasher just relics of the dark, dim past, when all water had to be heated and used sparingly.

First, tea biscuits for two:

1. 1/2 cup flour.
1. 1/2 cup sugar.

BOSTON CHAMBER PROBES POTATO PRICE BOOST

Continued from First Page.

four potato crop in New England to have been two per cent. above the average of October 1, and practically 77 per cent. of last year's total.

The head of one big retail concern pointed out that the only way for the public to get the potato was to declare a boycott on potatoes, as was done in Worcester.

Because of the refusal of housewives to purchase potatoes at exorbitant prices, the wholesale figure was cut from \$3.50 to \$3.25 for a two-bushel bag, a reduction of 14 per cent.

Consignees in Boston, including a number of the big chain stores, have been buying only from week to week, with the result the freight yards are glutted with cars of potatoes.

For this reason, and to prevent

TO DARKEN HAIR
APPLY SAGE TEA

Lock Young! Bring Back Its Natural
Color With Wyeth's Sage &
Sulphur

Common garden sage brewed
into a heavy tea with sulphur added,
will turn gray, streaked and faded
hair beautifully
black and luxu-
riant. Just a
few applica-
tions will re-
veal a re-
velation. If your
hair is falling,
streaked or gray,
mixing the Sage
and Sulphur recipe at home, though,
is troublesome. An easier way is to
get a bottle of Wyeth's Sage and
Sulphur Compound at any drug
store all ready for use for only 75
cents. This is the old-time recipe
improved by the addition of other
ingredients.

While wispy, gray, faded hair is
not sinful, we all desire to retain
that youthful appearance and attrac-
tiveness. By darkening your hair
with Wyeth's Sage and Sulphur
Compound, no one will tell, because
it does it so naturally, so evenly.
You just dampen a sponge or soft
brush with it and draw this through
your hair, taking one small strand
at a time; by morning all gray hairs
have disappeared, and, after another
application or two, your hair be-
comes beautifully dark, glossy, soft
and luxuriant.

AFTER USING TANLAC

"Tanlac, in all my 15 years of ex-
perience, as a nurse I have never seen
of a medicine that compares with
Tanlac in the treatment of indigestion,
dyspepsia and acidity. I have recommended
it to my friends and family, and it has
done wonders. Some time ago my mother
complained of being generally run down
and on the verge of a nervous break-
down. She had no appetite, her stomach
was distended, digestion was slow,
and her bowels were constipated. I
brought her a box of Tanlac, and she
began to eat with the greatest
pleasure, and made the digestive organs
function properly once more. A few
days she was well, bright and strong,
and although now 70 years of age, she
has her household duties and goes out
quite as well as the young. The
Tanlac and consider it the best tonic
and health builder ever discovered."
What Tanlac has done for where it
has been used for years. Tanlac is for sale
all over the world. Over 40 million bottles sold.

"Tanlac Tanlac, Tanlac! Pills for
indigestion, constipation, and general
weakness. Made and recommended
by the manufacturers of Tanlac."

found that the freight yards there are crowded with cars laden with tubers and that there are many in other yards between Boston and Portland.

PICK 11 JURORS CARBARN SLAYING

Wives of Defendants Remain Near the Courtroom in East Cambridge

While awaiting women relatives of the five defendants, headed by beautiful Mrs. Catherine Bennett, nervously paced the corridors of East Cambridge courthouse the task of selecting a jury in the Walburn car barn murder trial drew to a close today.

Up to 2 p. m. eleven jurors had been selected, the last being Walter H. Govey, 47, of Cambridge.

With the defendants' challenge reduced to only thirteen, and with 236 jurors still available, it was considered certain that the jury would be completed before the end of the day's session.

Up to noon 533 gentlemen had been examined, thirty-four today, their statements being personally checked by Judge Presbiter.

The five defendants, charged with slaying James Parnau, need watchmen at the car barn, and robbing Charles Matus of \$147.15, are John J. McLaughlin, Edward J. Heinele, John J. Devereaux, Peter V. King and Joseph H. Bennett.

Bennett was indicted as an accessory before and after the fact of the murder and before and after the fact of robbery while armed.

His wife has been a daily visitor since his confinement in East Cambridge jail and as the time of the actual trial drew near, she retained her belief in his innocence.

Leaving her children in the care of her mother in Roxbury, Mrs. Bennett has each day visited her husband to cheer him up, to protect her devotion, and to bring him delicacies prepared with her own hand.

The wife of Peter King of Brookline, whose murder indictment will be not pressed, according to District Attorney Reading, was on hand and conversed with her husband in the sheriff's office.

NAB RUM SHIP AFTER CHASE

About 15 miles off Thimble Island lights in the early morning hours, the CG 179 discovered a motorboat trying to make shore minus the customary running lights.

A searchlight sent its beams over the water, and in the offing the CG 179 sighted the motor boat C1855. A short chase and the motorboat was sighted.

CG179 found two men in her and, in addition, about 200 cases of gin.

A line was made fast and the catch was hauled in the Agassiz stores, where it was turned over to Deputy Collector Flanagan.

The skipper of the motor boat, Captain Berly, and his one mate were arrested, charged with attempting to violate the customs laws. Inquiry at the Custom House revealed the C1855 is listed as being owned by Thomas Connors of Boston.

Just about the time Captain Berly on this report he heard the Motor Craft was back on the job of smuggling rum. A week ago he had left with Capt. Berly, his crew of six men, was brought in to Boston after being caught eleven miles off Nahant Point with a load of alcohol aboard.

Captain Berly pleaded refuge from the storm and was allowed to go after being fined \$100 for an irregularity in his white papers.

On November 4 he cleared at the Custom House for Lansbury. Now he's said to be back on the job.

NEW SATIRE AT COPLEY IS DELIGHTFULLY FUNNY

Another new play, "The Mask and the Face" adapted from the Italian by G. B. Fernand, was shown at the Copley Theatre by the Clive players yesterday in a special matinee performance. From the title one might expect a grim drama on the Papal court scene, but it turns out to be a biting satire on the blessed marriage state with a story so delightfully and humorously farcical as to be laugh-out-loud.

Arranging their wife after the slightest suspicion of infidelity may prove the proper method to transmit the virus of the wronged husband and gain him the fervid applause of all eyes who admire a "man of action" but it seems definitely established in the last act that a wife-apocryphal wife is more to be desired than the wrong kind of publicity.

It takes the entire company to stage the piece, but the heart of the story is laid by the couple in question, well played by Alan Newberry and Jacqueline Newcombe.

PAINLEVE VOWS TO UPHOLD THE FRANCH

Paris, Nov. 11 (A.P.)—"We shall continue to defend the franchise, just as we defended Verdun," Premier Painleve declared at the Armistice Day luncheon of the French-American Peace Association of Paris today.

"The present situation is certainly very delicate, but it will end in that firm determination," he added. "We are making France for \$20,000,000 yearly."

LOYAL TO HUSBAND IN DEATH CASE TRIAL

Catherine Bennett, pretty, young wife of Joseph H. Bennett, the defendant's wife, is standing by her accused mate and says he will prove his innocence.

An extra effort, in order to free her and all France's friends, here as shoulder from her heavy chains, seemed will understand us."

\$100,000 TAXES LOST BY TRUST COMPANIES

Wait Rules the Action Should Have Followed 6 Months After Payment

Although Judge Watt of the Supreme Court has found that the Commonwealth is holding more than \$100,000 obtained by an illegal tax assessed upon the franchisees of several trust companies, he decided today that the companies have lost their right to recover the money, because they failed to take action within six months after the taxes were paid.

The matter came before Judge Watt on a petition of the Atlantic Trust Company for a writ of mandamus to compel the return of the tax paid by that company. The other companies awaited the result of the test case.

The case will go to the full court on exceptions.

Justice Bean, as auditor, in his report said the following trust companies paid in excess of the minimum tax that they were required to pay:

Albany, \$5,479.85; Cambridge, \$4,832.34; Central, \$4,251.32; Chelsea, \$1,111.45; Clinton, \$1,124.27; Commonwealth, \$4,169.13; Everett, \$2,624.31; Fall River, \$2,273.51; Franklin County, \$2,984.77; Hadley Falls, \$1,465.53.

Haverhill, \$990.89; Hub, \$6,342.42; Hyannis, \$2,849.74; Ipswich, \$1,065.26; Lawrence, \$1,474.11; Malden, \$1,521.35; Massachusetts, \$5,492.39; Maynard, \$1,347.41; Norwood, \$3,149.32; Sagamore, \$2,614.79; Stoneham, \$1,743.91; Walpole, \$1,142.79.

What is Charm ?

in a host...in a party...or in a cigarette?

Webster defines charm as "that which is irresistibly pleasing." But that isn't the whole of it.

Charm is good taste without sham or pretense; genuineness without make-believe; enjoyment without dull moments; good fellowship without flattery.

Charm is quality without adulteration or alloy. It rings true because it is true—all through. In men or in merchandise, where you find all quality, you find all charm.

Science agrees that Nature planted her coolest, mildest and most fragrant

cigarette tobacco in Oriental soil. MURAD does not temporize with this scientific fact; it doesn't mind, the best with the ordinary. Every flake of tobacco in MURAD is Turkish; so superiority is not simply a part in MURAD, it is its sum and substance.

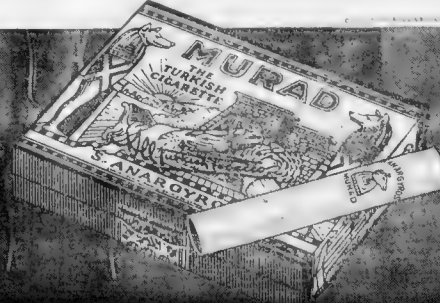

Nearly every wide-selling cigarette contains some Turkish. But in MURAD, Turkish—and the best Turkish—is the entity of the cigarette.

You can get some MURAD in many cigarettes; but only a MURAD is all MURAD.

At the left is a charming evening frock for a young person. It is composed of rose and mauve organdy muslin. The embroidery shown in the sketch is just made by a stitch in the material making a series of small loops.

At the right is a bright blue velvet coat with a red collar. The lining is of white satin. Note the flaring skirt to this coat.

MAKING OF A HUSBAND

Jim's face was blazing with rage as he looked at the girl who had just said to him: "You are a good-for-nothing!"

"A famous artist," he happened to say, "I am a famous artist."

And he was off at his home, and he wanted us to help out.

ON "MISUNDERSTOOD MEN."

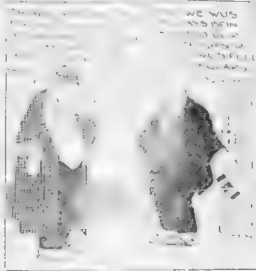

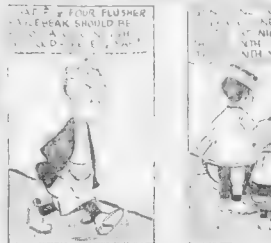

SOME MEN COMPLAIN THEY ARE NOT UNDERSTOOD AT HOME. How queer! The poor things must be DUMB. For a TONGUE is put in a MAN'S HEAD TO MAKE NOISES THAT WILL GET HIM WHAT HE WANTS. Of course, some can make TOO MUCH NOISE and SHOUT; WOMEN DON'T LIKE THAT. A man, to be understood, must understand HOW LITTLE women KNOW and ALSO HOW MUCH THEY must ASK QUIETLY. For what they want, they must put on a MAN'S HEAD. WEAK MEN are never understood by their WIVES, but a STRONG man can make himself understood EVEN in his OWN HOME.

DR. REED'S SECRETS OF HEALTH

BEDTIME STORY

By Charles A. L. Reed, M. D.
You probably have less difficulty in dealing with your

open enemies than with those who lurk in the dark.
If your enemy comes into the open, or if you are acquainted with his habits of life, you know precisely how to deal with him. This principle applies not only to

your human foes, but to all others that encroach upon your well-being. I allude to the germs, microbes or bacteria that cause disease and death.

One of the most important significant facts brought to light in that these foes lurk in the dark not only in the sense that we can not see them, but in the very literal sense that darkness is essential for their life and propagation.

It follows, therefore, that if darkness is essential for their life, light will insure their death.

This fact may indeed be recognized as a natural law, one of the multitudinous of natural laws that have been revealed by man unto man for the guidance of man, laws which in the aggregate comprise the great body of science.

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly raw or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A jar of Bowles Mentho-Sulphur may be had at any good drug store.
